Mayor Miller, in a prepared statement May 12 last, said investigators and ward chairmen of his organization, had reported to his headquarters that six members of the committee "had taken money. or in lieu thereof, promises, from the opposition." He said that if ne could substantiate it he would all in his power to send those members to the penitentiary.

"I am unwilling to sit with that stigma thrown over the commitee by Miller's poisonous, venomous tongue." Committeeman Bender said. "If there are traitors in this committee, we are entitled to know t and we should demand that they be exposed or that Miller retract, if, as I believe, his charges are un-

But the fact of the matter, as published some \$50 Miller \$440,000 more to administer \$65 the city's affairs for the first three months of his term than any \$80 Mayor in the city's history.

"The contest is over and the time to account to this committee for his charge has come. He is the last one to charge betrayal." Charges as to Weeke.

Bender said later that the Mayor his campaign had attacked 'Hank" Weeke, Inspector of Weights and Measures under the second Kiel administration, as a 'machine politician" of the undesirable type. "Yet 'Hank' Weeke is a bosom friend of the Mayor now," Bender charged.

The committee meeting held in the Planters' Building, was the first in three months. Its sentiment toward the Mayor was not ested by a vote on Bender's proposition other than by the reusal of any member to take up the matter with a second and place

before the committee. Mayor Miller was too busy at the City Hall today to discuss Bender's address.

THE new tendency in Fashion is to show fur trimming in effects that center interest on hemlines-bands all around, godets of fur, long Tuxedo collars of fur, reveres and wide cuffs. The flare is established though versatile in manner, and the result is an entirely new coat mode to distinguish the season of 1925-26.

The materials are the exquisite sheen fabrics-kashmir needlepoint, kashmir imperial, Roulustra and others-with fur trimming to harmonize. A new collection displays models in sizes 36 to 46, cleverly designed and expertly tailored. (Women's Coats-Third Floor.)

Relief She Obtained From
The Use of Herb Juice.

The certainty is an unexpected pleasure for me to be able to make this statement in praise of your wonderful Herb Juice, because I never thought anything would relieve me of the severe case of constipation, indigestion and gratifits which I have suffered from for years, and Mrs. Mary Hess, who resides at 2336 Ohlo Ave., St. Louis, Mo., in a recent conversation with the Herb Juice man.

"For years I have suffered agonies with my stomach," continued Mrs. Hess, "to say nothing of the dreadful case of constipation which I had. Regardless of what I att it seemed that it positively refused to digest. No sooner than my food reached my stomach it seemed to ferment, causing gas to form which bloated me very badly and caused me considerable pain. It goes without any results whatsoever. Finally I decided to try Herb Juice and as I said before I was greatly surprised at the instantaneous relief it brought me. My constitution has been entirely relieved and my bewels are in better condition than they have been for I was greatly surprised at the instantaneous relief it brought me. Association Seeks Reaffiliation With Associated Building Interests of St. Louis.

Action on an application by the Master Plumbers' Association for reaffiliation with the Associated Building Interests of St. Louis was deferred "pending further consideration," following the presentation of the application at 'he monthly meeting of the group council of the building interests yesterday.

While no member of the Group Council would state that the postponement of action was a result of an investigation by the Attorney-General's office into alleged antitrust violations by the Master Plumbers' Association, it is known that directors of the Building Inlowing closely all developments in the investigation

The Master Plumbers' Associacion withdrew from the Associated Building Interests last July. This action was followed shortly by a emand by members of the Plumb ers' Union for a wage increase. The cemand was successfully resisted after the Master Plumbers had sought and received the support of the Associated Building Interests

organization.

Following the settlement of the wage controversy, the Master Plumbers' organization sought reinstatement in the Associated Build ing Interests by format application action on which was deferred yesterday. In the interim, 13 of the 180 plumbing contractors in the Master Plumbers' body have been admitted to the Building interests organization as individuals.

The Associated Bullding Interests, organized two years ago, was increased by 65 members yesterday with the acceptance into the organization of the Mason Contractors Benevolent and Protective Association (bricklaying contractors). The membership of the building interests body now numbers more than 300 contractors, employing approximately 80 per cent of the union building craftsmen here. The organization has been successful in the settlement of wage disputes and has declared against further increases in building costs.

OPEN VERDICT IN DEATH OF SERGT. ELLIS' FOSTER FATHER

Jury Unable to Decide Whether Gas Was Turned on by Accident or Intentionally.

A Coroner's verdict in the case of Boleslaw Moczydlowski, 54 years old, who was found dead in his home, 1308 Cass avenue, Monday near an open gas burner, read that "death resulted from fuel gas. not determined by the jury."

A police report of the death, ren-dered by Patrolman Wunderlich of Carr Street Station, declared that Moczydlowski was found dead in the kitchen of his home by his daughter, Helen, who summoned Wunderlich. The latter, in his report, said Helen Moczydlowski told him her father had forced her to leave the kitchen an hour before he

ther members of the family testified Moczydlowski died in the bath-room of his home and that a hose connection on a gas heater had be-come setached. The family physi-cian, Dr. Joseph Nowrocki, also testified that he had recently treat-

ed Mocardlowski for heart trouble.

Mocardlowski was the fosterfather of Sergt. Michael Ellis, who
received the Congressional Medal of Honor and the cross of a chevaller of the French Legion of Honor for his deeds with the American Expeditionary Forces during the World War.

BONDSMAN. TWO OTHER MEN INDICTED FOR FORGERY

Charges Grew Out of the Substitution of Volunteer for Missing Defendant in Weapon Case.

Three men were indicted yeserday on charges of forgery growing out of an alleged substitution Aug. 19 last of a volunteer for a defendant whose \$1000 bond on

charge of carrying a concealed weapon had been forfeited. Those indicted were Michael Cutter, professional bondsman; Martin Brennan, a salesman, of 3509 Easton avenue, and Michael Walsh, 38, of 2218 Dickson street. Brennan's bond of \$1000 was forfeited last March, when he failed to appear in court. Cutter, seek-ing to get the bond forfeiture set aside, appeared in Circuit Judge Hamilton's court on Aug. 19 with

man he said was Brennan. Assistant Circuit Attorney Bow cock became suspicions and sent the man before Bertillon Superintendent Shea, who stated that he bore no resemblance to Brennan. The man, who said he was Walsh, admitted the substitution after it had been detected, and said he was doing it as a favor to Cutter.

We are so beset by the unknowable and the unguessable that it is a relief now and then to discover something in which you can reliably foresee just about what will happen. Take the case of the Chicago man who had \$25,000 in cash on him when he fell into the hands of the local police. After 24 hours, or so we are informed by the news, he had \$500 of it left. If it is getting away from him at the rate of about \$1000 hold him here say 30 days?

We say candidly They have played Germany against Established that all other ways and means which have gland, and now would like to play the Calbeen attempted have failed. Not only are we unaware of what the Y stands for we are not even stre it stands for anything. A guessing contest was held, and each of our 232,607 members participated. A first, second and third prize was offered. The auswers are all in, but we have no means of determining the correct one. A written inquiry was addressed to Mr. Anderson himself. We give you his reply verbatim: "It's a free country, and anybody who has the price of a stamp is entitled to the unstricted use of the mails. At times I have felt that this is a mistake. I congratulate such a fine body of men and women on having got together and trust they eventually find something useful to do." Our body thereupon sent a delegation to call upon Mr. Anderson and demand the information. Imagine our chagrin when he told our committee that the Y stood for: "You might try minding your own damn business and leave honest men's middle initials alone." pleaded that we were near the end of our rope, to which he replied that there was no place he would rather see us. Must it be said that approximately 232,607 brave and determined men and women, united in a common ideal and consecrated to a single purpose, have been baffled by one willful man? We appeal to Just a Minute, we appeal to the Post-Dispatch, we appeal to all public-spirited citizens to join in our quest. Let's put old St. Louis on the map.

This man has a responsibility to the reading public. If there is some scandal back of his reluctance, we have the right to know what it is. For years Anderson has posed before the readers of the Post-Dispatch as one who insisted that the public had a right to know the truth about everything. let him come clean. RUSSIA AND HER FOREIGN TRADE.

From the New Republic. W HATEVER else may be said of the soviet leaders, they are compete economic diplomatists. They are out after foreign credits, and they are getting them, although not so abundantly as they desire ed States against Germany. And their area ment is cogent. The country that file the pioneer orders for agricultural, textile, mising and electrical machinery will have first chance at the repeat orders. It is ficult to change from one nationa another. Accordingly the German American exporters have to consider only current demands, which are vist. the immensely greater future demands. Ou State Department will assure us that w have nothing to gain, because Rumia will have no means of payment for many years But Russia's agriculture, her chief seux of exports before the War, is rapidly ing back. Our department of Agricultar quotes Russian estimates to show that the wheat crop for 1925 is only 13 per cent low the five-year pre-war average and corn the pre-war average has reached. The comparison is no favorable, since 1925 has been an contionally good year. But tractor farming spreading rapidly; draft animals are creasing in number. ON FARM AT DAWN

Seven Federal Agents Crouch in Wet Grass for Two Hours Watching Operations.

Seven Federal prohibition agents crouched in the wet grass for two hours early today and watched two men operating a still in an outhouse on the farm of Henry Pfeiffer, at the end of Bellefontaine road, immediately south of Bellefontaine Farm.

With the first light in the east James Dillon, in charge of the agents, waved for an advance on the place and while the surprised men stared at the squad surrounding their shelter, Dillon introduced

The men gave their names as Joseph Pagella, 45 years old, and John Pagella, his son, 22. The agents destroyed a still at which the men had been working and smashed cans containing 55 gallons of alcohol , which had been run off during the night.

Cleverly hidden under brush near the shelter, the agents found two concrete vats filled with a total of about 10,000 gallons of mash. The vats will be dynamited. The two men were held in \$2500 bond each pending a decision on application for warrants charging manufacture of liquor.

When economy is dangerous

OW stupid of some people to be tempted by the saving of a few pennies in accepting fraudulent imitations of some well-known product.

Here and there about the country certain unscrupulous dealers offer a makebelieve Listerine.

Imitations may actually endanger health. The few cents saved are not worth the risk some people take.

Demand Listerine in the original package (brown paper carton)-14 ounce, 7 ounce, 3 ounce and 114 ounce.

Too Fat Millions now easily reduce

There is no excuse for excess fat today Any person who permits it suffers in beauty

see that millions have learned how to remove it. Overweight is not one-tenth so common as it was.

The modern way is Marmola Prescription Tablets. It is the easy, pleasant way. No abnormal exercise or diet is required. Take four tablets a day and watch the excess disappear. Reduction is gradual, rarely exceeding a pound a day. So the body adjusts itself to the new condition.

Marmola has been used for 18 years. Countless people have used it and told others about it. The use has spread, until people now are taking a million boxes yearly. There are people all about you who can tell you what it does.

WITH FLAPPING WINGS

Machine, With Motor Shut Off, Descended Almost Vertically for 500 Feet.

LONDON, Oct. 14.—Satisfactory esults have been obtained from Dr. Gross' Cod Liver Oil Tablets of a new Spanish airplane-part orthodox plane, part helicopter, and part ornithopter-the corres It's easy for your doctor to tell you to slow down "—to work less, exercise more, et more sleep. But it's not easy to do."

The machine is the invention of

dinary plane, having wings, fusi-lage and propeller of the usual which rises from the center are that they are arranged laterally instead of perpendiculaground. They rotate, and being hinged, flap slightly, something like birds' wings. This is the part of the machine that enables pendicularly.

No Skill Required. De La Cierva calls his ma-

chine an "autodynamo", although it possesses some qualities of the helicopter and the vane-flapping feature makes it an ornithopter. "To take the air in it is certainly extraordinary experience Courtney describing "I was astonished at the machine's performance. It is a great advance in aviation. The machine requires no skill whatsoever to operate. I took it for a straight flight first and then took it up 1,000 feet. When I switched the engine off the machine descended vertically and landed

"Descending was a trying experience. I came down 500 feet practically vertically, with all the sensations of heading for a crash When within 10 to 15 feet of the ground the fear is even more pronounced. But my fear was unnecessary. The machine landed with the greatest ease and ran only a few yards.

Small Landing Space. "The present machine is only an experiment, built on an aero fuselage. It would be interesting to try it with a specially built passenger-carrier plane. It undoubedly has a big future."

It is thought here that the bis 10-seafer passenger ship which requires at least 300 yards run for a t: ke-off, could, if constructed on the De La Cierve principle, take off in about twenty yards and land in a space not much, larger than its standing room. Courtney said the horizontal speed of the new machine with a 130horsepower engine is about 80

MAN HELD ON STATUTORY CHARGE MADE BY FIRST WIFE

at his home on Washington ave nue, near the St. Charles Rock road, St. Louis County, on a warrant charging a statutory offense, sworn out by his first wife, Mrs. Hattie Bishop, 45, of 6457 Wells

65 DEER TO BE PUT IN TWO STATE PARKS

Fifty Purchased and 15 Donated by Faney County Game Preserve.

JEFFERSON CITY, Mo., Oct. 19 -Sixty-five white tail (Virginia) deer will be placed in deer enclosures in two of Missouri's state parks before the end of the approaching winter. Announcement f the purchase of 50 deer for the state herds, was made by Commissioner Keith McCanse of the game and fish department. Fifteen deer already have been donated to the state by the Taney County Game Preserve.

The purchase of the deer was made from a Michigan company for \$40 each, including crating and shipping costs of the animals from their native habitat on Grand Island, in Lake Superior, where they roamed wild over a 13,000 acre

"We have agreed to purchase all the deer these people can furnish us this year as well as the next year or two," said McCanse. "but we were only promised 50 this season as other states have spoken head of us."

The commissioner believes that he 50 head purchased should furnish a rugged nucleus for the prop-agation of the species in the wooded regions of the State. They are not pampered by civilization, having been allowed to roam free on their island home. The whitetailed species are native of Missouri, and in past years were found here in abundance. The deer were brought in the proportion of one buck to two does, and will be capured as soon as the snow falls in Michigan. The snow will force the nimals to enter the company tockades to feed, where they can e taken without damage and shipped to the Missouri enclosures he shipments are expected shortly fter the Christmas holidays.

Wire enclosures eight feet high em State Park in Dent County and the Ellington State Park in Reyholds County. The deer will first be placed in these enclosures for proection. Later, after a sufficient umber have been propagated, it is planned to liberate deer in all of he seven State parks. In each park a single strand of wire will set off a refuge for wild animal

A 2500-acre refuge has already been wired off in the 12,000-acre park in Dent County. It is planned continue the work in the other

No hunting will be allowed in the game refuges, and trespassers will be prosecuted by the State. Metal disks warning persons of the prohibited areas will be attached to the wire at 100-yard intervals. Sportsmen will be permitted to roam in the vast acreage of wood ed land surrounding the refuges.

POPULATION OF MISSOURI CITIES OF MORE THAN 10,000 Estimates of July 1, 1915, Inhabitants Given by Census Bu-

reau in Statement. WASHINGTON, Oct. 14.-Estimates of the July 1, 1925, population of Missouri cities of more han 10,000 inhabitants were givby the Census Bureau in statement today. The figure for St. Louis, as already published, is 821,543. Estimate are based on he assumption that the annual inrease of any city since 1920 is equal to the annual increase between 1910 and 1920, as shown by the Federal Census reports.

The Missouri estimates, in addi-tion to that for St. Louis, are as follows: Cape Girardeau, 14,258; Carthage, 10,438; Columbia, 10,-634; Hannibal, 19,851; Independence, 12,720; Jefferson City, 15,-843; Kaĥsas City, 367,140 Mober-ly, 13,875; St. Joseph, 78,342; Se-dalia, 22,745; Springfield, 42,140. No estimate was made for Joplin, which, on Jan. 1. 1920, was credited with a population of 29,902.

NEW TRIAL SOUGHT FOR

SLAYER UNDER LIFE TERM Boy's Attorneys Contend Court Erred in Overruling Defend-

ant's Motion to Dismiss. SEDALIA, Mo., Oct. 14.—The rst step looking toward an appeal in behalf of Everett Adams, of Wil-mington, O., youthful slayer of Professor Aden R. Clawson, of Lodi, N. Y., under sentence to life aprisonment in the state penitentiary, who was convicted Oct 10, has been taken by attorneys Claude Wilkerson and Mark A. McGruder, of defense counsel.

In filing of a motion for a new trial they contend the court erred overruling defendant's motion o dismiss, based on the fact Adams was less than 17 years old at the inge of slaying, and that he had never been ordered through juvealle court to be tried under the general law.

It is further averred the court failed to instruct the jury on secnd degree murder, manslaughter and self-defense.

at the same time you plan your house—and specify it must be installed according to the Standard Code

THE STANDARD CODE is a A series of regulations adopted by the National Warm Air Heatresidences.

It is an exact, scientific and practical guide for home owners and builders—the result of years of experience under varying conditions—years of laboratory tests conducted by the National Association—and elaborate research and investigation conducted by Professor A. C. Willard, head of the Department of Mechanical Engineering of the Experiment Station, University of Illinois.

The Standard Code begins with the provisions to be made in the building itself — it specifies the size, location and construction of the register openings, the slope and size of the flue and character

of the linings. It explains the method of determining the correct size of the basement pipes, ing and Ventilating Association the registers and of the furnace and governs the installation of itself. It specifies how and where warm air heating furnaces in the furnace must be placed and covers every detail of the entire installation in a manner that leaves nothing to chance or guesswork.

> When the heating system is planned at the time that the house is designed, you have the correct height in the basement to allow the proper slope for the pipescorrect spacing between joists for the warm air pipes—correct location of registers to distribute the heat properly—correct chimney andflues to assure the proper draft.

Properly installed in accordance with the Standard Code, a warm air heating system is the most economical, the most healthful and the most efficient and cleanly

of any heating system in existence. Its advantages may be briefly summed up as follows: It is the only system by means of which the

air conditions in the home can be easily gulated and are und It is the only system that ventilates as it heats, creating and maintaining a con-

stant movement of the air throughout the It is the only system that automatically supplies the correct percentage of moisture in the air necessary to the maintenance of

It can be automatically regulated so as to maintain the desired temperature with the minimum of attention.

It is far quicker in operation than any other system. The warm air is pouring out of the registers within 7 minutes after the fire is started.

It costs less to install than any other system and will give years of service with little or no cost for repairs or replacements.

It is the only system that utilizes no furniture space in the house and adds practically no weight to the building.

Learn more about the advantages of warm air heating. Find out how comparatively inexpensive it is to install and to maintain. Let us send you a copy of the Standard Code, which has been published in pamphlet form and will be mailed free on request. Address all communications to E. E. What Are the Facts

about Food and Grocery advertising in the St. Louis market? What IS, and has been for years, the determining factor in their sale?

For years the Post-Dispatch has carried more Food and Grocery Advertising than all other St. Louis newspapers—morning, evening, Daily and Sunday COMBINED. This supremacy is one of many years' standing. The first six months of 1925 again, as usual, finds the Post-Dispatch overwhelmingly in the lead. No new factor has developed in the field, notwithstanding the deceptive information given out by a St. Louis newspaper.

Food and Grocery Advertising

First Six Months of 1925:

 POST-DISPATCH
 597,710

 Globe-Democrat
 277,698

 The Star (No Sunday)
 190,060

 The Times (No Sunday)
 69,228

The Post-Dispatch exceeded the Globe-Democrat by 320,012 lines or more than one hundred fifteen per cent. The Globe-Democrat, The Star and The Times COMBINED failed by more than 60,000 lines to equal the lineage of the Post-Dispatch alone.

Persiflage cannot alter the lineage record. Assertion of rapid growth in volume of Food and Grocery Advertising, when an actual loss was experienced, is an intolerable and unworthy deception. Claims of relative standing with first newspapers in other cities, while a weak second in its own, does not influence advertisers who know—or inquire—about St. Louis.

Present-day conditions in St. Louis emphasize the marked and continued supremacy of the Post-Dispatch in Food and Grocery Advertising.

Post-Dispatch — The Strong Favorite With the Retail Grocers in St. Louis

To determine the popular choice for a "one-newspaper" campaign, a recognized Advertising Agency sent an impartial questionnaire to every retail grocer in St. Louis. Of the 372 who replied, 266 selected the Post-Dispatch, 80 the second newspaper, 16 the third newspaper and 10 the fourth newspaper.

pecial to the Post-Dispatch. PITTSBURG, Pa., Oct. 14. THE report that Barney Dreyfuss has sold the Pittsburg Pirates, champions of the National League, to a syndicate of local men was revived

Latest reports that the syndicate which is supposed to have purchased the Pirates indicated that its members were Joseph Trees, millionaire oil State Senator John Harris, Pittsburg: Henry Town-send, president of the Pittsburg Hockey Club, and State Senator James Coyne of Pittsburg. Other rumors, all of which have failed of confirmation, linked the name of Fred Clarke, ssistant manager of the Pirates, with the reported new wners of the club. Those who rofessed to have inside knowldge of the deal said Dreyfuss agreed to sell after winning his second National League pennant in 16 years.

Notice to Cotton Trade

You have observed the rapid growth of the Chicago Cotton Market—not yet a year old. This market was created to fulfill a definite need. How well it is succeeding may be seen in its rapidly increasing number of friends.

Chicago's contract is basically sound. Advantages offered are numerous. To further strengthen and clarify this contract changes are made as they become

Recent amendments will interest the cotton trade. One provides that delivery notice must specify a Galveston or Houston bank where the seller will make delivery. If no bank is designated delivery must be made at the Chief Cotton Inspector's office in the delivery city. Payment is in Cheiago funds unless otherwise agreed. When seller or buyer notifies the Cotton Registrar at Chicago that he represents a non-member principal, such principal may make or take delivery. But the member in whose name the contract was made is

liable until it is fully performed.

By another amendment the seller within 48 hours must deliver to the buyer a duplicate sample of each bale invoiced. Otherwise he must pay one dollar for each sample lost.

Still another amendment stipulates that with all deliveries the seller must submit, with the invoice, rail-road freight bills showing payment of inbound freight on an equivalent amount of cotton. Freight bills must not be endorsed limiting concentration and must have at least thirty days to run before expiration.

Full details about Chicago's remarkable cotton contract may be had by writing the Cotton Reg-istrar, Chicago Board of Trade

THE Captains stood there dog. ged and disconsolate. news to take back to Nelson and he fuming and raging as it was. Emma marked all from her retirement. Sir William left the room to make himself ready and still the two men waited there, not exchanging a word, evidently on tenterhooks. Presently came back the Am

bassador, and away they went. She could hear the carriage rolling down the street. She slipped from her hiding place and stood a minlight as the Emma of Up Park and into the stately plumed hat and long silk cloak, and ordered her own carriage. The Queen should know the rights of this busimen got back from the audience and Troubridge carried a paper in hand and a frowning dissatisfled face above it. A ministerial order written under the King's eye, hedged with conditions, barbed with restrictions, to the governors of the Sicilian ports, permitting wounded to be taken ashore, and victualing and water to be accorded under certain circumstances, in case of need.

"And I'm a Dutchman," said Hamilton, flinging himself exhausted into a chair, "If you ge: anything out of that damned orde: For why? Isn't it obvious it can be twisted any way, and, if convenient, the King can send a hint to throw every damned difficulty in

Troubridge also swore quietly as he sat and looked at the paper. It was better than nothing and that was all. A diplomatic shift to for them off and please the French. Indeed, it might prove worse than nothing and a mere loss of time. The two sat silent, thinking dangerous thoughts. If it came to forcing the Sicilian King, as it very well might, why, then—neither of them cared to consider the conse-
